    This is a success admonition.
```

Success

This is a success admonition.

Abstract

```
!!! abstract
    This is an abstract admonition.
```

Abstract

This is an abstract admonition.

Collapsible admonitions

Add `?` to make the admonition collapsible:

```
??? note "Click to expand"  
    This content is hidden by default.
```

Click to expand

Add `+` to make it expanded by default:

```
???+ note "Already expanded"  
    This content is visible by default.
```

Already expanded

This content is visible by default.

Custom titles

```
!!! note "Custom title here"  
    You can replace the default type label.
```

Custom title here

You can replace the default type label.

Without icon

```
!!! note ""  
    No icon, just the title and content.
```

No icon, just the title and content.

Nested content

Admonitions can contain any Markdown, including code blocks:

```
!!! example "Configuration example"
    ``` yaml
 theme:
 palette:
 primary: teal
    ```
```

Configuration example

```
theme:
  palette:
    primary: teal
```
